

# Final Year Project Proposal

## **Proposed Project Title**

Student Name

Yellow highlighted text is for guidance only and should be deleted from your final proposal submission

BSc (Hons) Your Course

School of Engineering and Computing
University of Lancashire

#### 1 Problem Statement

A brief outline of the problem your project aims to address.

## 2 Ethical Analysis

A discussion of the potential ethical issues surrounding the problem domain and any considerations you will need to make to ensure your project is completed in line with the ethical standards expected of a computing professional, including potential issues relating to equality, diversity and inclusion.

#### 3 Risk Assessment

An investigation into the potential risks of the project itself, i.e. risks that could lead to project failure, contingencies and how risks can be mitigated.

## 4 Health and Safety Assessment

An investigation into the potential health and safety risks to yourself, the public and users of your artefact.

### 5 Potential for Commercial Development

A short outline of any envisioned potential for commercialisation/commercial development of your solution.

#### 6 Time and Resources Plan

How you present your plan for managing your time and project resources is up to you. Your plan should detail how you intend to spend the time and resources on the project to work towards solving the problem outlined in your problem statement.

#### 7 References

Any references cited in the report should be listed here in a consistent recognised format (e.g. Harvard). This section does not count towards your overall word count.
